Electrostatic and electromagnetic fields – new materials and technologies

10th Jubilee Symposium

Łódź

12-13 November 2012

First Announcement

PO IG 01.03.01-00-006/08

Dear Sirs,

We kindly invite you to take part in the 10th edition of EL-TEX Symposium which this time will be held in November in Ambasador-Centrum Hotel in Łódź. Retaining the same subject area of plenary sessions we would like to draw Participants' attention to the newest achievements in high-tech textiles. As before presentations will focus on current hazards arising from electromagnetic and electrostatic fields as well as on protection of men and electronic devices against the effects of these fields and on the role of textiles used for protecting purposes.

Jubilee edition will be an occasion to present the results of ENVIROTEX - individual key project coordinated by Textile Research Institute (IW) - realised within Operational Programme Innovative Economy and co-financed from the funds of European Regional Development Fund. ENVIROTEX subject area matches the thematic scope of EL-TEX. The following sessions are planned:

- Barrier materials protecting against electromagnetic fields,
- Barrier materials protecting against static electricity,
- Barrier camouflage materials in the range of VIS, IR and microwave radiation.

Symposium aim is the survey of scientific and technological developments and the exchange of experiences between experts representing different scientific disciplines. It should also provide an opportunity to present ENVIROTEX results to potential users/consumers.

Deadlines:

abstracts submission in English (max 2 A4 pages)..... **15.06.2012**
 notification of acceptance.....**06.07.2012**
 manuscripts ready for printing **30.09.2012**

Registration fee:

payment **210,00 EURO**
 after **30.06.2012** **250,00 EURO**

Fee covers:

participation in sessions, CD with abstracts and presentations,
 lunches (12-13 November 2012), social event.
 Hotel cost is not included

Symposium language:

Polish and English

Information:
